Flight-Deck Awareness

If you're not there,
the ship still will turn into the wind.
If you're not there,
the flight-deck manning still will be met.
Maintainers still will fix airplanes.
Aircrew still will man the birds.
If you're not there,
because inattention got you hurt...
The Boss still will say "Launch 'em,"
but our job will be harder...
as if it wasn't hard enough already.
Stay alert! We need you there.
